Professional Summary

Systems Developer at DecoArts Marketing, Inc. with nearly three years building Laravel and React tools for CitiHardware. My work includes REST APIs, Oracle ERP reports, and a customer experience platform used across 140 stores.

Experience

Systems Developer

DecoArts Marketing, Inc. | Feb 2024 - Present

- Built Oracle ERP accounting exception reports with SQL for audit and compliance.
- Integrated REST APIs between Laravel back ends and React applications.
- Packaged web applications for desktop with Electron and mobile with Capacitor.
- Built CitiHardware's customer experience platform for 140 stores and continue to add live updates, access controls, filters, and PDF export.
- Built a point-of-sale display for transaction items, campaign videos, and static banners.

Education

Bachelor of Science in Information Technology, Major in Information Security

University of Southeastern Philippines | Jun 2023
